

Nearly \$10 Million in Benefits Offered to 407 ETR Customers; Loyalty Program Now Enters Phase Three

TORONTO, February 3, 2008 – 407 ETR announced today that it has extended close to \$10 million in benefits during the first year of its rewards program, and will continue to offer free kilometres and instant gas savings to personal transponder customers who frequently use Highway 407 ETR.

“ETR Rewards” is a tiered rewards program that provides customers with free 407 ETR kilometres and instant savings on their gas purchases at Petro-Canada sites. 407 ETR’s most frequent customers could see savings equalling up to 15 percent of their monthly bill. There is no enrolment process or membership fee – eligible customers are automatically enrolled and notified by mail.

“It’s an instant, easy-to-use rewards program that our most frequent customers continue to enjoy,” said Antonio de Santiago, President and Chief Executive Officer of 407 ETR. “These are significant savings and I encourage customers to keep using their gas savings card to take full advantage of the program as our way of saying thanks.”

Last week, 407 ETR notified over 71,000 accounts of their eligibility in phase three of the program, including over 20,000 new accounts that are now eligible. These customers will receive their ETR Rewards welcome package and ETR Rewards Gas Savings Card so they can take immediate advantage of the program.

Every month, eligible customers can receive up to 140 free kilometres on Saturdays and Sundays and can instantly save up to 9 cents per litre on the price they pay for gas. Based on their previous usage, many customers in the top tier will now drive weekends for free.

“For many customers, they can enter the program or move up a tier by simply taking just one more trip each week on 407 ETR,” added de Santiago.

To be eligible for the program, customers must have a personal account with at least one light vehicle transponder, have no outstanding balance greater than 35 days on their account and travel more than an average of 400 kilometres per month during a qualifying six-month period. At the end of each six-month period, customers will be advised of their tier status for the next phase of the program.
